

Dr Jesse Stoff

Dr. Jesse Stoff has Worked on hUBC Therapies

Dr. Jesse Stoff works as a clinical immunologist at Long Island, New York's Linchitz Medical Wellness, where he has practiced since 2013. Dr. Jesse Stoff also serves as chief science officer at Immune Biologics, where he performs basic research in relation to Bio-Engineered Lacteal Complex (BLC). He has held this position since 2001.

Dr. Stoff has traveled to such international destinations as Europe, Taiwan, Australia and Mexico to give lectures at medical conferences. His topics have included "Immune Reconstitution with Cytokines and Similar Agents" and "Immune Reconstitution with Targeted Human Umbilical Cord Stem Cells."

He has also worked as a consultant on the construction and operation of a human umbilical cord blood (hUBC) stem cell clinic in Mexico City and another such clinic in Atlanta, Georgia. Dr. Stoff has produced several protocols for therapies involving the use of targeted hUBC stem cells for patients facing auto-immune diseases, cancer, amyotrophic lateral sclerosis (Lou Gehrig's disease) and multiple sclerosis.
