My previous expertise is in a few different areas. I have a great deal of customer service experience, clerical, computer experience (IDX, word, adobe, PowerPoint, excel, outlook, access, register), retail (sales support, non-sale, key holder) and Inventory. Retail has helped me become hardworking, strong willingness to learn, more motivated, driven, taught me how to better assist customers and acknowledge their needs and wants, allowed me to work independently and as a team player, and to also love detail oriented work.
