*Business System Analyst*

Phone: (520) 549-7996  
Address: 6825 S Avenida De Aventura  
Tucson, AZ  
Website: <https://www.linkedin.com/in/chris-cardall/>  
Email: [Chris.cardall@Gmail.com](mailto:Chris.cardall@Gmail.com)

I am a professional who values excellence in every project or task that I take on. I have done well to keep a variety of skills in my back pocket to keep myself versatile for any situation. Some of these skills include:

Agile Project Management, Six Sigma Methodologies, process and gap analysis, running metrics and reports to provide insights and recommendations, accounting for hard and soft assets in an environment, service delivery coordination, relationship and team building, order entry, data accuracy, details oriented, etc.

There isn't anything that I cannot do or learn. I master my jobs and make them my own. I am a hard working individual. I am a team player and a self starter. I am also a team builder and will lead a team to be the best at whatever the project calls for.

### RECOMMENDATIONS

#### Brandee Schueneman

2/14/18, 6:47 PM

Independent Associate, LegalShield Official

Chris is a "go to" employee when it comes to getting the job done.

He takes the time to understand what the end users needs are and never fails on delivery in a timely manner.

When others might not have been available,

Chris could be called upon to jump in & help out even on short notice.

He has excellent follow through with his communication and he understands the importance of building a strong network of contacts.

#### Marina Galoustian

6/26/18, 5:34 PM

VP of Operations / Consultant, Operation Resolve It - We Offer  
Logical Solutions for your Business

It's rare that you come across standout talent like Chris Cardall! I have had the pleasure of working with him at Intuit for 3 years. His customer first attitude coupled with his distinct ability to quickly analyze multi-site telecom/IT issues and bring them to a swift resolution, making a positive impact for our Risk Payment Customer's experience! In addition, he made my front-line operations team's job, a lot easier. Chris would be an asset to any Team!

#### Megan Soto

4/16/13, 9:34 AM

Sales Manager, TEKsystems

I had the pleasure of placing Chris at CSC, and then again directly for Raytheon. He has a big picture understanding of Raytheon's technical environment, as well as an excellent communication and delivery style. I would not hesitate to work with Chris again in the future.

#### Tammy Dockery

5/31/13, 9:53 PM

GBS Service Desk Lead, Raytheon

Chris Cardall worked on projects with me and provided excellent deliverables for projects including work flow diagrams, instructions, and process documentation. His writing skills are high quality. His technical analysis lead to process changes that closed gaps in IT service workflows. I was also impressed by how fast he was able to deliver process change results into production including documentation of those changes. The documents were easily understood by all who read them, regardless of technical experience.

## **Josiah Clark**

6/21/18, 12:47 PM

Operations Program Manager, Microsoft

While working with Chris at Intuit, I was impressed with his technical skills as well as his ability to learn quickly. We worked on a number of initiatives together which included planning, stakeholder engagement and communication, as well as User Acceptance Testing.

Chris has a talent for analyzing business issues and developing solutions that exceed expectations. He is a great team player and would be a valued asset on any team!

## **Adeela Bokhari**

6/14/18, 6:17 PM

Workforce Management Consultant, Veyo

Chris and I worked together at Intuit for over a year.

He helped to train me and taught me the systems of the business.

He is an outstanding worker, great team player,

and very smart. He is also extremely dedicated and takes pride in his work. Some nights he was up all night from being on call,

but still came in the next morning with a great attitude,

ready for the next challenge. He never missed a day and never missed a deadline. If someone had a question He was courteous and took his time to explain, even if it meant him staying a little over.

Customer service, even to peers,

was a top priority. He was always there to help and always looking for feedback to improve himself. I would be honored to work for him or with him again.
